**CONTRACTOR'S STATEMENT OF RESPONSIBILITY
 SPECIAL INSPECTION REQUIREMENTS**

Permit No.: _____

Project Address: _____

Section 1704.4 of the California Building Code requires each contractor responsible for the construction of a main wind- or seismic-force-resisting system, designated seismic system or a wind- or seismic-resisting component listed in the statement of special inspections (prepared by the registered design professional in responsible charge) to submit a statement of responsibility to the building official and the owner prior to the commencement of work on the system or component. It has been determined that special inspections are required for this project. The special inspector(s) shall be approved by the building official per CBC 1704.2.1. A separate form, *Special Inspection Instructions*, is available from this Department.

I, _____, hereby acknowledge that I am aware of the special inspection requirements contained within the statement of special inspections. I am the contractor responsible for construction of the following system(s) or component(s): _____

I further acknowledge that I will exercise control to obtain conformance with the construction documents approved by the building official. The procedures I will use for exercising control, as well as the method, frequency, and distribution of reports, are outlined as follows (attach additional pages if necessary):

The individual(s) responsible for exercising control to obtain conformance are identified below:

<u>Name</u>	<u>Position in Company</u>	<u>Qualifications</u>
_____	_____	_____
_____	_____	_____
_____	_____	_____

Contractor's Name: _____

Contractor License Number: _____

Address: _____
